WORK EXPERIENCE

FGL - SportChek

Back Of House Lead

Aug 2023 to Present

- Lead back-of-house operations (Shipping & Receiving), optimizing inventory management to meet store requirements.
- Utilize materials management systems (Not on Floor, Sales Forecast Report) to identify trends and make recommendations for inventory sell-through.
- Conduct regular weekly cycle counts using RFID technology, ensuring accurate inventory tracking and efficient product location.
- Ensure all products are properly tagged with RFID to support real-time inventory accuracy and ease of locating items.
- Collaborate with cross-functional teams to support promotional activities and ensure timely product delivery.
- Provide support in aligning store-level inventory with promotional plans ensuring timely execution.
- Regularly communicate with internal teams to improve operational efficiency and enhance customer satisfaction.

Darpan Technical Services

Project Coordinator/Estimator

April 2019 to Aug 2022

- Managed supply chain and vendor relations, contributing to a 15% cost reduction per project.
- Prepared detailed cost estimates for mechanical projects, including HVAC, plumbing, and piping systems, ensuring budget accuracy for commercial and residential buildings.
- Developed and implemented project plans aligning mechanical designs with client needs, while coordinating with supply chain for seamless execution.
- Utilized software tools such as Daikin and Bluebeam software for estimation and documentation, streamlining the process for enhanced project delivery.
- Attended contractor meetings to communicate project details, timelines, and deliverables effectively.
